

# Homework 6

Febraury 13, 2019

1. Work through the spreadsheet basics course at <https://tinyurl.com/y6p2yfxg>. When you are finished, print out the page that shows your progress to prove that you've completed the course.
2. Read the budgeting basics article at <https://tinyurl.com/yy13jepe>. Imagine yourself in the future, living and working in East Tennessee. Construct a budget for yourself in Google Sheets. (Look up information about rent, salaries, and expenses to make it as realistic as possible.) Be sure to use formulas to total each section of your budget. When you are finished, share the spreadsheet with [robert.lowe@maryvillecollege.edu](mailto:robert.lowe@maryvillecollege.edu).
